

BEACON360 TREK

360° WIDE AREA LED LIGHT

Lind Equipment presents the Beacon360 Trek, the little brother to our best-selling patented Beacon360 Blaze. The Beacon360 Trek casts light in 360° and upwards, illuminating work areas up to 25' in every direction.

The most amazing part about this unit is its flexibility and portability. The small size will allow crews to bring this light anywhere. This tough light can be easily moved around the site and be re-attached to different accessories such as tripods, floor stands, magnets and clamps. This level of versatility allows the lights to adapt to your immediate application.

KEY FEATURES

- Lightweight and easily portable.
- LEDs will last over 50,000 hours.
- No bulb replacement required.
- Only 60W to provide 7,000 lumens.
- Rated for outdoor use.
- Instant start-up, at full output, even in cold temperatures.
- Rugged heavy-duty construction.
- Customizable light output settings.

KEY BENEFITS

- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Energy saving device for a greener footprint.
- Extremely versatile light for multiple applications.

INDUSTRIES/APPLICATIONS

- Construction
- Maintenance
- General contractors
- Emergency responders
- Military
- Events
