

# ROBERTSON RENT-ALL

## WORKING AT HEIGHTS FALL PROTECTION

Our course is designed to provide users of fall protection systems with adequate knowledge to be able to assess the job, evaluate the hazards, and choose the correct fall protection system when working at heights.

The course includes theory and a hands-on demonstration of proper harness and lanyard inspection and donning and doffing. The course content is based on multiple CSA Standards pertaining to fall protection.

### COURSE HIGHLIGHTS

- Understand the principles of fall protection
- Identify fall hazards
- Perform fall protection planning
- Perform inspection, donning and doffing, and storage
